

# Perlo Skillbridge Program

**We work hard, we take care of our people, and we always do what's right.**

The Perlo Skillbridge Program connects transitioning military members to careers in construction management. With or without previous industry experience, we will teach and train you in the Perlo Way to help you gain new skills and knowledge, including how to use various standard project management tools and industry software. As part of this program, you'll work alongside experienced leaders in the industry, while giving you access to professional opportunities to help you find your own path forward in construction.

#### Potential Career Paths Include

- |                   |                       |
|-------------------|-----------------------|
| Project Manager   | Superintendent        |
| Project Engineer  | Accountant            |
| Project Estimator | Marketing             |
| Field Safety      | Office Administration |

#### About Perlo

Perlo Construction is proud to be continually ranked as one of the best places to work in Oregon. Perlo oversees and constructs new buildings and renovations in nearly all commercial market segments, including auto dealerships, education, healthcare, retail, wineries, and more. With continued positive growth, we celebrate our individual differences and work hard to create an award-winning workplace environment that attracts, retains, and develops a diverse range of people.

**“When I first came to Perlo, I was surprised by how many of the skills I had from my military career also applied to my new role as a Project Manager. The culture at Perlo helped make the transition out of the military to my new civilian career easy.”**

Forrest Gregg  
Perlo Project Manager  
CPO, US Navy, Retired
